## Tabletop Poetry

Dreamy pieces created by the multifaceted artist Coralla Maiuri transform any table they are set upon. Laced with gold, the *Dafne* fruit plate and *Ptolina* ice cream bowl from the Villa Borghese Collection—inspired by the beauty of Rome and its thousand personalities—uses colour, silver, and gold as if they were magic words. The Piazza del Popolo Collection's rainbow-speckled *Confetti* salad bowl and *Blue Marble* cup and teapot—with delicate hues of blue—evoke a light-hearted fantasy land. The surfaces, patterns, and colours of Coralla's exquisite tableware invite you to be enchanted by them.

### PAPER CHASE

Who says paper napkins can't be chic? Definitely not Beyoncé! Shop one of her fave brands: Renova's treeless paper table napkins are fit for a queen and bring a fun pop of colour to your tableware.
